

RAFAEL BURGHINI

JUNIOR FULL STACK DEVELOPER

ABOUT ME

HI! I'm Rafael, a **Full Stack developer** passionate about technology and programming. My software development journey began at the age of 14, when I had my first experience with robotics.

My technical focus and ability to **think outside the box** combine perfectly with my love of languages. Being able to communicate in **4 different languages**, I have a versatility that allows me to work seamlessly both independently and collaboratively. Finally, my strong self-taught skills allow me to learn quickly, while always maintaining good coding practices.
